

# MINESPEC SAFETY ACCESS PLATFORM LADDERS

Seamless, fully-welded 915mm high handrail with midrail to ladders and platform.

### --- BOOM-RAIL

Barrier to prevent access up to a controlled point.

Specifically designed lightweight 'C' section provides high strength and torsional resistance. It also allows all fixings to be concealed and not protrude where they could cause injuries or damage.

#### **FORKLIFT POCKETS**

Providing a simple solution for the safe positioning of safety access platforms with a forklift.

For easy maneuverability.

Unique design allows the work platform ladders to be flat pakced for easy cost-effective transport and storage. Each ladder comes with easy step-by-step installation instructions.

One way self-closing barn style safety doors, with safety hinges and Safety Yellow paint.

## **HEAVY-DUTY PLATFORM**

Non-slip surface with 4.5mm thick plate for added strength and durability.

Special non-slip to improve onsite safety by assisting with the prevention of slips and falls.

## LIFTING HANDLES

Convenienty placed lifting handles allows the unit to be moved around easily.

Keep tools and equipment dry and clean using the tool tray included.

FEET V

Large feet with non-slip rubber mouldings to provide a stable footing.

MODEL	PLATFORM HEIGHT	PLATFORM AREA	BASE Area	APPROX WEIGHT
SMP500	500mm	750mm x 750mm	940mm x 900mm	54kg
SMP750	750mm	750mm x 750mm	1025mm x 900mm	64kg
SMP1000	1000mm	750mm x 750mm	1110mm x 900mm	84kg
SMP1250	1250mm	750mm x 750mm	1200mm x 900mm	89kg
SMP1500	1500mm	750mm x 750mm	1350mm x 900mm	94kg
SMP1750	1750mm	750mm x 750mm	1450mm x 900mm	99kg
SMP2000	2000mm	1000mm x 1000mm	1725mm x 1145mm	136kg
SMP2250	2250mm	1000mm x 1000mm	1815mm x 1145mm	141kg
SMP2500	2500mm	1000mm x 1000mm	1900mm x 1145mm	159kg
SMP2750	2750mm	1000mm x 1000mm	2125mm x 1145mm	165kg
SMP3000	3000mm	1000mm x 1000mm	2100mm x 1145mm	171kg
