

SAFETY ACCESS PLATFORM LADDERS

HANDRAIL
Seamless, fully-welded 915mm high handrail with midrail to ladders and platform.

SAFETY GATE
All work platform ladders come with an inward opening safety gate, which can be locked in the open or closed position. This provides a kickplate all around the platform as required by Australian standards.

C-SECTION
Specifically designed lightweight 'C' section provides high strength and torsional resistance. It also allows all fixings to be concealed and not protrude where they could cause injuries or damage.

FIXED WHEELS
For easy maneuverability.

FRAME DESIGN
Unique design allows the work platform ladders to be flat packed for easy cost-effective transport and storage. Each ladder comes with easy step-by-step installation instructions.

SAFETY CHAIN & CLIPS
All work platform ladders come with strong fully welded safety chains and clips.

HEAVY-DUTY PLATFORM
Non-slip surface with 4.5mm thick plate for added strength and durability.

ANTI-SLIP
Special non-slip to improve onsite safety by assisting with the prevention of slips and falls.

LIFTING HANDLES
Conveniently placed lifting handles allows the unit to be moved around easily.

TOOL TRAY
Keep tools and equipment dry and clean using the tool tray included.

FEET
Large feet with non-slip rubber mouldings to provide a stable footing.
